ResQU2 Project Platform

Oct. 2018 – Sept. 2020

- Brings together Rescue Authorities, seaports and knowledge partners
- Enables better emergency preparedness, co-ordination and co-operation
- Leading to safer and more efficient operations to reduce harm and loss of life in emergency situations

Four Projects of the Platform

- 10 partners from eight countries:
**Estonia, Finland, Germany, Latvia,
Lithuania, Poland, Sweden and The
Netherlands**
- Four EU part-funded projects that
have already been concluded

See e.g. this one
produced in HAZARD:

Online Toolbox for Risk Assessment Methods in Seaports
